

St. Mary's Parish Honors Pastor

To show their appreciation for what Fr. John Breitenstein has done since coming to Grayling, parishioners of St. Mary's Church gave a party in his honor on Sunday evening. The affair was also to celebrate his birthday which fell on June 2nd, the 12th anniversary of his ordination as a priest, June 7th and his Feast day on June 24th.

The affair was a complete surprise to Fr. Breitenstein. Over 200 members of the parish enjoyed a pot luck dinner which was followed by a program. Out-of-town guests were Fr. Breitenstein's brother Carl and family of Grand Rapids.

The hall was attractively decorated for the occasion and the tables graced with flowers.

Fr. George Riauba of Grayling and Roscommon gave the invocation. Lawrence Hunter, Grand Knight of the Knights of Columbus gave the introduction and explained the reasons for the celebration. How much Fr. Breitenstein is liked by the parishioners and how they appreciate what he has done for the parish. Group singing was led by LeRoy Christian.

Comments were made by Robert LaMotte, Wesley LaGrow and William LaGrow, members of the church board. Lawrence Hunter then presented a cash purse to Fr. Breitenstein from the parishioners and a spiritual bouquet from the children and Sisters. A Rosary for Father's Intentions was led by Jerome Kessler after which the honored guest was called upon to speak. Dancing, cards and a social evening followed.

Mr. and Mrs. Lawrence Hunter were chairmen of the celebration. Helping them were the Mesdames Margaret Hall, Lora Gould, Ollie Lovely, Frances Edwards, Cell Cinciala, Wilma LaGrow, Edith Lovely, Helen Wiltse, Geneva Douglas, Mary Peterson and Joann Gorman. Gentlemen helping were: LeRoy Christian, Jerome Kessler, William and Wesley LaGrow, Leo Lovely, Bud Gould, Leland Marshall and Larry Balch. Mrs. Frank Muhr was in charge of decorating the hall. SHERIFF OFFERS TIPS ON SAFE DRIVING

Sheriff John A. Papendick states that the traffic-safety campaign, sponsored by the State Safety Commission, and conducted under the leadership of State Highway Commissioner Charles M. Ziegler, who is also Chairman of the Commission, has received the enthusiastic cooperation of local motorists.

The slogan of the campaign, which has been in effect since May 4, is "Keep in Lane—Don't be a Road Hog."

Sheriff Papendick offers the following thirteen safety tips — likely ways to have trouble, he calls them:

(1) Not enough time to complete the pass. (2) Passing on hills and curves hiding traffic. (3) Pulling in front of a driver who is passing. (4) Passing at intersection hiding traffic. (5) Speeding up when another car tries to pass you. (6) Cutting in on the car you are passing. (7) Straddling two lanes, making it harder for others. (8) Passing on the right, interfering with traffic. (9) Passing several cars at the same time. (10) Crossing centerline of four-lane roadway. (11) Passing in third lane of three-lane highway. (12) Following so closely cars behind can't pass. (13) Following a car ahead which is passing.

The Sheriff says that, if motorists will remember these tips, there will be fewer accidents.

Mr. and Mrs. A. L. Stafford and family of Ludington spent Tuesday in Grayling.

Commencement Well Attended

Commencement is now history, or a memory, and thirty young men and women are ready to go out into the world. Some will continue their education at higher institutions of learning, while others will go into other fields of endeavor. Whatever they choose or wherever they may go, Grayling folks are sure to learn of the accomplishments of many.

The Commencement exercises were carried out as planned with Baccalaureate at Michelson Memorial Church on Sunday evening, May 31st, followed Tuesday evening with Class Night and Wednesday evening with Commencement.

There were large crowds of relatives and friends in attendance at the exercises and on hand to congratulate the graduates and wish them well.

No class was ever more entertained or feted than this class. The last few weeks were just a whirl of excitement. There was the lovely party given by several of the parents of the Junior and Senior Classes at the Officers Club and several smaller ones, all of which were enjoyable.

Then to close the festivities Mrs. John Ludeman gave a beautifully appointed tea at her home on the AuSable River. It was on Tuesday afternoon of last week from 4 until 6 o'clock and the guests included besides the members of the Senior Class, their parents and the faculty members and their husbands or wives. It was a lovely sunny day and the Ludeman home was a picture with bouquets of lilacs and other spring flowers scattered about the rooms and used as centerpieces on the two serving tables. Over the fireplace hung a plaque with the class motto "The Higher They Climb, the Broader the View."

Met at the door, the lady guests upon arriving had corsages of spring flowers pinned to their dresses; those for the mothers of the graduates were tied with ribbons of the class colors—blue and white and those of the teachers with green and white, the school colors. The bouquets were made by Mrs. Theodore Stephan and her daughter Mrs. Norbert Skotnicki.

The serving tables were resplendent with china and silver and from one coffee and tea and many delicacies were served, from the other punch, and dainty desserts were served from both.

Assisting the hostess with the serving were Mrs. Walter F. Truett, Mrs. Louis F. Hayes, Mrs. Les Welch, Mrs. Margaret Leslie and Mrs. Leonard Allison, while those who were invited to pour and took turns, included Mrs. Frank Bond, Mrs. Joseph Stripe, Mrs. Marius Hanson, Mrs. Wesley Kumpula, Mrs. Bruce Smith, Mrs. Robert Bovee, Miss Wanda Mikrut, Mrs. Emil Giegling, Mrs. Roy Milnes, and Mrs. Gertrude Rowley. Mrs. Arthur Allen and Mrs. LeRoy Christian presided at the punch bowls. Girls of the Junior and Sophomore Classes were also among the helpers.

Over one hundred enjoyed the ever friendly hospitality of a wonderful hostess—Mrs. John Ludeman. It was one of those parties that is never forgotten.

Bowling Building Progressing Well

Work on the building to house the Community Bowling alleys under the sponsorship of the Grayling Post 106, American Legion is progressing in fine shape. The block work nearing completion and it is expected that the steel rafters will be laid in place during this week.

Anyone wishing to work on the project will be welcomed and there is plenty of work to be done.

A Legion spokesman said. This coming Sunday, it is hoped to lay all the roof boards and plenty of help is needed. If you're not too busy why not drop over and donate an hour or so of labor?

Anyone wishing to work on an evening rather than Sunday, are urged to contact Bowling Committee Chairman A. J. Nelson or Emil Tahvonen. About 15 men were working on the building last Sunday and there have been several evening working days since the building was started.

Payments of pledges to the Legion Bowling Fund have been coming in rather slowly. Robert Neafie, chairman of the finance committee said in urging everyone to send in their pledges as they come due in fifth installments the first of each month starting with May. The Legion Bowling Fund has committed itself to the purchase of materials and equipment and need the money coming in as planned to meet the payments, he added. Fifty-two promissory notes were issued Saturday to those who have already paid their pledges in full. When the pledges are paid in full a note is issued and mailed to the subscriber dated on the first of the following month and to come due in ten years and carrying two percent interest. By not meeting in your payment on your pledge on time causes the fund expenses and extra work in letting you know. The finance chairman pleaded with the subscribers to meet their payments on time in order to cut expenses and avoid further details.

## Great Logic . . .

A few weeks ago President Eisenhower discussed, at a press conference, certain cuts in defense expenditures he is recommending. He vividly described the philosophy that governs his thinking in these words: "I have always . . . believed that there is a great logic in the conduct of military affairs. There is an equally great logic in economic affairs. If these two logical disciplines can be wedded, it is then possible to create a situation of maximum military strength within economic capacities."

"If, on the other hand, these two are allowed to proceed in disregard one for the other, you then create a situation either of doubtful military strength, or of such precarious economic strength that your military position is in constant jeopardy."

The President thus said, in effect, that a sound government economy is as important to our defense and survival as actual military power—and that reckless, unbridled spending can be as dangerous as a foreign foe. That is as refreshing and as important an attitude as we have seen in high places in government in many a long year.

## Since Andy Jackson's Day . . .

According to a recent AP story, "The United States spends more money forecasting the weather now than it cost to run the whole government during Andy Jackson's Administration."

That fact isn't cited as a criticism of the weather service. But it is a striking example of how government has got out of hand, and how vital it is that every non-essential activity be eliminated and every possible nickel cut from the budget.

## He's Done Something for Himself!

Only a few short minutes ago, the man you see in the picture above was handed the golden keys to his 1953 Cadillac—and now he's off on that first delightful journey behind the wheel.

And as he leans back against the deep, soft cushion, and looks out over that proud hood into the roadway beyond . . . well, he knows that he's done something for himself!

He knows it just from the way he feels there in the driver's seat—relaxed, relaxed, and at peace with the world . . . completely confident that he has made the wisest possible choice of a motor car.

He senses it in the marvelous way the car handles and drives and rides . . . so effortless and smooth and quiet that it's a joy and an inspiration just to hold the wheel in his hands.

And he knows it, too, from the feeling of pride and satisfaction he enjoys as he looks forward to the

delight of his family and the approval of his acquaintances and friends.

And how the miles and the years will bear him out in his conviction!

Let him arrive at a distinguished hotel . . . or an exclusive club . . . and he will find that his Cadillac constitutes the perfect "letter of introduction."

In fact, let him travel wherever he will in this broad land of ours . . . and he will find his Cadillac a trustworthy and unfailing companion, an inspiration to own and drive, a valued contributor to a magnificent way of life.

Yes, you're looking at a man who's done something wonderful for himself—wonderful beyond even his fondest dreams.

And if you think it's time you did something for yourself, then we suggest you come in and see us.

Let's make it "Cadillac time" for you!

## YOUR MILK...

You may tour the five continents and sail the seven seas but you will not find anything that will sustain you more than honesty. It is wanted in all places of trust. Even those that do not have it are slow to deal with those without it. Honesty in age is old but never out of date. Friendship is wide open but only honesty can hold it. We can have all else but if we do not have this, we have nothing. This much can be said of honesty, it is the measuring stick of our lives by which all of our deeds are judged. In some parts of the world, the cow is led to the customer's door and the amount wanted, milked into the customer's container. The first part of the milk is the thinnest and the last is heaviest. Thus the first customer is cheated. You have a better way of getting your milk than that. See Hunter's AuSable Dairy for this better milk.

**U - M Research Finds Aspen Good Deer Food**

ANN ARBOR—Michigan's former "weed tree," the aspen, can provide a partial solution to the state's acute problem of food shortages for deer, a University of Michigan study reveals.

Conducted by Casey Westell Jr., research assistant in the U - M School of Natural Resources, as part of the Michigan Memorial-Phoenix Project, the study shows that each acre of aspen wooded area can provide 100 to 150 "deer days." These are the numbers of days' feed for one deer provided by each acre over a three-year period, Westell says.

Since a large part of the deer's diet consists of the stems and leaves of young aspen trees, Westell explains that the best feed areas are those recently cut-over or logged.

This cutting-over, he continues, permits the sun to reach areas

where new trees' "suckers" rise through the ground from the parent tree's wandering lateral roots.

Over 500 aspen stands and cut-over areas in the northern part of the Lower Peninsula were sampled, he says. With a chart based on the amount of browsing or feeding found, wildlife managers can plan their forest cuttings so as to create a continuous supply of aspen shoots, thus helping solve the deer's acute food shortage, Westell points out.

Performance-wise, Pontiac is second to none, with power to spare that whisks you through city traffic or cruises with remarkable economy. And Pontiac is a big car, with a long, 122-inch wheelbase.

But Pontiac's outstanding feature is its price—a price so low that if you can afford any new car you can afford a Pontiac. Come in and get the facts that prove that dollar for dollar you can't beat a Pontiac!

### SEA LAMPREY CRISIS

The Congress of the United States is apparently working in the interests of conservation with a reverse twist. Those mystifying legislators may actually, the unconsciously, help the perpetuation of the dreaded sea lamprey in the Great Lakes. They have just cut the operating budget for the control project from a needed \$614,000 to \$104,000, leaving barely enough to keep a skeleton organization going, and nothing at all for the construction of sorely needed new lamprey control devices.

### Spawning Run Now On

In hundreds of clear, cold streams emptying into the Great Lakes—most of them in Michigan—the blood-sucking sea lamprey is now making its annual spawning run. The adult male and female, having fed and fattened on our finest Great Lakes fish for the past single year of their mature life, move far upstream to a carefully selected gravel-bottomed section of the river where they will spawn and die, their life cycle completed. Thousands of tiny lamprey will hatch, squirm deep into the mud along the river banks remaining buried there for four years of immature life as larvae. They'll grow about 8" in that time, and will then drift down into the Great Lakes for a one-year feeding spree, attaching themselves to fish, grinding thru scales and skin, and sucking away the blood of life.

### Trout Exterminated

The sea lamprey is held responsible

for the disappearance of the lake trout in Lake Huron and Lake Michigan—an economic loss placed at more than three million dollars annually. Whitefish, too, are disappearing, not to mention the once-prevalent walleye pike, steelhead trout, and other species. Despite the positive evidence that the blame for the rapid decline of our commercial fisheries can be placed on the sea lamprey, those in control of our national budget refuse to allocate funds desperately needed to help exterminate this predator. Our U.S. Fish and Wildlife Service has made rapid strides toward striking at the lamprey at the one point where they are vulnerable: during the spawning run.

Electric fences stretched across spawning streams effectively block the run, and the lampreys die in a futile effort to spawn. Now, with virtually all spawning streams identified, and all plans ready for the final strategy of fencing the waters to block lamprey while permitting the runs of valuable fish, the federal government refuses necessary funds.

### Write Your Congressman!

You and I may be able to help in this crisis affecting every kind of fishing in Michigan. Sit down and write your Congressman. If you don't know his name write Senator Ferguson or Potter. Ask for emergency funds to beat the Sea Lamprey in the Great Lakes before this terrifying vampire takes over our inland waters, destroying sports fishing in the Michigan Outdoors we love so well.

# RECORD-BREAKING GAS MILEAGE

for the driving **YOU** do!

This year's Chevrolet brings you the most important gain in economy in Chevrolet history. And it's the kind of everyday economy that saves you money wherever and however you drive!

Inch along through heavy traffic. Roll up the miles in steady highway cruising. Long trips or short errands, byroads or boulevards, you get far more miles per gallon in this great new Chevrolet.

New high-compression power is the reason. Both the new 115-h.p. "Blue-Flame" engine in Powerglide models—and the advanced 108-h.p. "Thrill-King" engine in gearshift models—deliver more power on less gasoline. Acceleration and hill-climbing ability are greater, fuel consumption is lower!

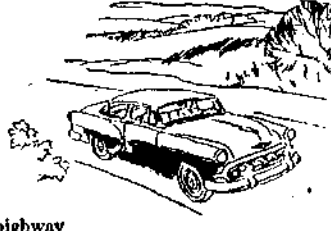

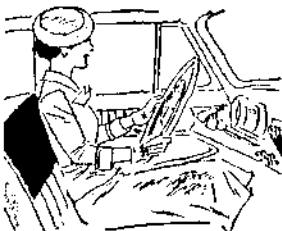

This is the kind of economy that counts the most—important gasoline savings for the driving you do, together with lower over-all costs of upkeep. And along with it, you enjoy all the other advantages that only the new Chevrolet offers you. Come in and see for yourself!

\*Combination of 115-h.p. "Blue-Flame" engine and Powerglide automatic transmission available on "Two-Ten" and Bel Air models only.

**Stephan Brothers To Attend  
San Francisco Youth Congress**

One hundred Michigan young people representing the fellowship of all Seventh-day Adventist youth in this state will "go west" by chartered bus and auto to the church's Pan American Youth Congress which is to be held in San Francisco, June 18 - 20 of this year. Brad and Don Stephan of Grayling have been chosen to represent the churches of this area.

Others who plan to attend in an unofficial capacity are Mr. and Mrs. Alva Stephan and children Kay Ann and Richard; and Elder and Mrs. L. W. Hyde. Both families plan to take tents to camp overnight enroute.

In San Francisco the delegates will participate in education and career clinics, panel discussions on current moral problems and how Christian youth can better cope with such problems, and various other workshops on topics of international interest. They will also hear many well known speakers.

Colorful pageantry will be seen in such features as a panorama of missions; costume night, when the dress and mode of living will be depicted for each country represented; and drills by the Pathfinders (Adventist youth group corresponding to American Scout organizations).

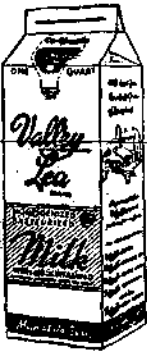

According to Elder Fred Beavon, director of Michigan youth and also Camp Au Sable at Grayling, more than 20,000 delegates and visitors are expected to attend this summer's congress. Delegations will be sent from as far north as Point Barrow, Alaska, and as far south as Punta Arenas, Chile.

In citing the guiding motive of the congress, Elder Beavon pointed out that "careless living and a craze for pleasure have proved to be false substitutes for true happiness, which, in reality can be found only in the basic principles

of Christian living. Thus it is the basic purpose of this congress to inspire a deeper consecration in the hearts of the youth of our church and thereby open to them the great potentialities of sharing their faith with others."

This year's Pan American Congress, which includes North, Central and South America, will be the first of its kind in the history of the church.

Mr. and Mrs. Ernest Larson and Coach and Mrs. Arthur Allen were hosts to the 1933 track team at the Larson home at Camp Grayling Monday evening of last week. A hot dog roast out of doors was much enjoyed. After all had had their fill the group went to the baseball field and sides were picked for soft ball, and one captained by Mr. Larson won the

game to the tune of 19 and 15. The other team was captained by Mr. Allen, who pitched for his side. Mr. Larson, pitched for his team and was relieved by Jim Burch.

After the game the crowd returned to the Larson home and Mr. Allen showed a movie of the State Track meet that was held in Lansing and in which "Red" Hamilton and Ronnie Larson participated. Then there was ping pong and a marshmallow roast, closing a full evening of fun for everyone.

## Know Any Of These Men?

This is an old one, so we'll give you a few hints. This is the Governor's Honor Guard and the picture was snapped about the turn of century at Camp Eaton, not Grayling. One man in the picture is a frequent Grayling visitor. Do you know him? If you can't figure out who it is or which one, ask Spike.
